

# Application for Graduation with Honors in a CLAS Major or the College of Education

If you plan to graduate with honors in the College of Liberal Arts and Sciences or the College of Education, you must 1) file the Registrar's Application for Degree *and* 2) complete this application online, print it, secure signatures, and submit it to the University of Iowa Honors Program (UIHP) *after* grades have been posted for the semester before graduation. Graduating with honors in two or more majors? Please submit a separate form for each major.

It is your responsibility to familiarize yourself with the requirements for graduation with honors in your major. The UIHP requires only that your final UI GPA (including your last semester of enrollment) be 3.33 or higher. *If you are in a program with a thesis requirement*, you should also submit a copy of your thesis or project, with a properly formatted and signed title page and a properly formatted abstract, by the established deadline. For title page and abstract requirements, see <http://honors.uiowa.edu/research/theses/index.shtml>.
